

Please DO NOT take away the "no call" list. It prevents a lot of annoying callers from interrupting private/family time. It has been a Godsend for us, as most of the calls came at dinner time. The persons making the calls were very intrusive and persistent and wouldn't take no for an answer. I believe people should be able to request a service or a product, not have it forced on them and the no call list does that for us. Thank you.
